RESUPPLY

You’re short on time and require immediate resupply. You have a small amount of food and water left. Your location is located in a remote area, making it difficult to get help. You need to find a way to resupply or ration your resources to survive.

Options:
1. Continue on your current path and hope to find a way to resupply.
2. Take a different route that you think may lead to a civilization.
3. Use your remaining resources to build a shelter and wait for rescue.

Decision:

What will be your next step?
